

Logistics – Field Setup

1. Line the fields Saturday
 - a. Pick up lining supplies and nets
 - i. Paint Machines
 - ii. Paint (9 cans per field for first time set up)
 - iii. 100 yard tape measure
 - iv. *Bring additional 100 yard tape measure if available*
 - v. *String*
 - b. Wear old shoes and pants – they will get white paint on them.
 - c. Lining Technique
 - i. Make sure that paint machine is set for the appropriate height which produces a wide line.
 - ii. Lining should be done going both directions – lines can be seen much better.
2. Lining Progression
3. Locate Corners with spikes – 75 yards (225 ft) wide by 110 yards (330 ft) long is ideal – try to set the biggest, safe field possible
4. Locate Mid Field with spikes
5. Run string around perimeter of field – probably 2-4 strings per field
- 6. Line perimeter of field including center line**
7. Locate Center of field
- 8. Line Center Circle – 30 foot radius**
9. Locate Center of back line –
10. Locate Goal Posts – 12 feet each direction
11. Locate Goal Box – 30 feet each direction, 18 feet out
12. Locate Penalty Box – 66 feet each direction, 54 feet out
13. Run string around Goal Box
14. Run string around Penalty Box
- 15. Line Goal Box**
- 16. Line Penalty Box**
- 17. Line Penalty Spot – 36 feet out**
- 18. Line Penalty Arc – 30 foot radius from penalty spot**
19. Goal Posts – Even after asking for them to be located in position, you will most likely have to sort through the bone pile near the out building and move them into position.
